

ICCP10

10th International Conference on Computational Physics • 16-20 Jan 2017 • Macao • <http://www.iccp.org>

CALL FOR
PAPERS

*The 10th
International Conference on
Computational Physics*

Public Lecturers

2013 Nobel laureate in Chemistry

Arieh Warshel

University of Southern California

2004 Nobel laureate in Chemistry

Aaron Ciechanover

Technion - Israel Institute of Technology

Important Dates

15 Apr, 2016	Call for Mini-Symposia
30 Apr, 2016	Call for Papers
15 May, 2016	Call for Mini-Symposia Closed
1 Aug, 2016	Call for Papers Deadline
25 Aug, 2016	Notification of Acceptance
1 Sep, 2016	Early Bird Registration Opens
15 Oct, 2016	Early Bird Registration Deadline
16-20 Jan, 2017	Conference Dates

ICCP10 will be held in Macao SAR, China from 16 - 20 January, 2017. ICCP10 aims to provide a platform for computational physicists, mathematicians, materials scientists and engineers to share their recent developments in frontiers of theory and numerical methods as well as applications in computational physics and exchange ideas.

The conference will consist of two public lectures, plenary lectures, mini-symposia with invited and contributed oral presentations, and poster sessions. All authors in computational physics, computational mathematics, computational science and applications or related disciplines are encouraged to submit high-quality papers for the following mini-symposia.

Mini-Symposia

- A. Density-Functional Theory Computations
(Mini-Symposium A1 - A12)
- B. Quantum Modeling
(Mini-Symposium B1 - B6)
- C. Mathematics and Numerical Modeling
(Mini-Symposium C1 - C14)
- D. Computational Biology
(Mini-Symposium D1 - D7)

*For details of mini-symposia please
visit the ICCP 10 website at*

<http://www.iccp.org/TechnicalProgram/1265.html>

Abstract Submission

Please submit your abstract (following the ICCP Abstract Template) directly on the Paper Submission System at <http://www.iccp.org/ContactUs/120.html> (Guidelines for Submission can also be retrieved).

Special Issue

Selected papers can be published in *Communications in Computational Physics*.

For more details please refer to <http://www.iccp.org/ContactUs/1238.html>

ICCP10

10th International Conference on Computational Physics • 16-20 Jan 2017 • Macao • <http://www.iccp.org>

Conference Venue

ICCP10 is going to be held at Sands Cotai Central, Cotai Strip Macao.

Cotai Strip Macao is on the Cotai Strip, the heart of modern Macao's accommodation, event and entertainment offerings. The Cotai Strip is a stretch of reclaimed land that now joins the islands of Coloane and Taipa. It is close to all the major entry points to Macao, by land, sea or air and with easy access to Macao's many points of historical and cultural interest.

With a 150+ fleet of ferries, coaches and cars connecting Cotai Strip Macao to air, land and ferry hubs, this integrated city is truly an all-inclusive destination for everyone.

General Chair

Da Hsuan Feng, University of Macau, Macao

Vice Chair

Zikang Tang, University of Macau, Macao

International Scientific Advisory Committee Chair

Lionel Ni, University of Macau, Macao

Local Organizing Committee Chair

Zikang Tang, University of Macau, Macao

Local Organizing Committee Secretary

Hui Pan, University of Macau, Macao

Organizers
